

SOLAR PANEL OR WATER INSTALLATION CHECKLIST FOR THE COVES ESTATE

STAND No.: _____ COVE: _____ Date received: _____

Owner's Name: _____

The following information must appear on the application.

NUMBER	REQUIREMENT	REQUIREMENT MET
1.	Solar panel positions to be indicated on a roof plan.	
2.	Roof plan/sketch does not have to be done professionally. It is merely for administrative purposes, but must include sufficient details, such as Site boundaries, the North point, and the position of the residence on the site.	
3.	Solar water / PV system to be specified with panel sizes with data sheets for equipment to be installed.	
4.	All cables and pipes to be neatly trunked and trunking to be painted to match the wall colour. To be noted on the plan with a single line diagram of cable route and position of Inverter and batteries.	
5.	All solar panels must be flush mounted and in line or parallel to the existing roof pitch. To be noted on the plan.	
6.	Solar water heating system, all geysers to be concealed within roof space. All pipework to be trunked and painted externally. To be noted on the plan.	
7.	Sectional Title Applications Only: Certificate from a Structural Engineer confirming that the roof is capable of supporting the proposed load.	
8.	Sectional Title applications ONLY: Letter attached from Body Corporate granting approval for the solar application.	
Other points for the residents to supply this is an HOA requirement.		
9.	Certificate of compliance for all electrical work.	Required

Please Note:

The Coves infrastructure is not able to receive power from your solar system.
